

School District Integrated Pest Management Plan

When completed, this template meets the Healthy Schools Act requirement for an integrated pest management (IPM) plan.
An IPM plan is required if a school district uses pesticides¹

IPM statement

It is the goal of Twin Rivers Unified School District to implement IPM by focusing on long-term prevention or suppression of pests through accurate pest identification, by frequent monitoring for pest presence, by applying appropriate action levels, and by making the habitat less conducive to pests using sanitation and mechanical and physical controls. Pesticides that are effective will be used in a manner that minimizes risks to people, property, and the environment, and only after other options have been shown ineffective.

Our pest management objectives are to: *(Example: Focus on long-term pest prevention)*

Focus on long term prevention and reduce risk applications through extensive and preferential use of alternative pesticides.

IPM team

In addition to the IPM Coordinator, other individuals who are involved in purchasing, making IPM decisions, applying pesticides, and complying with the Healthy Schools Act requirements, include:

Name and/or Title	Role in IPM program
Enrique Placencia	Director, Maintenance and Operations
Justin Daikai	Maintenance Buyer
Devin Davidson	Service Manager
Jesus Barajas	Service Technician
Phillip Falkenhagen	Service Technician

Pest management contracting

Pest management services are contracted to a licensed pest control business.

Pest Control Business name(s): Official Pest Prevention

Prior to entering into a contract, the school district has confirmed that the pest control business understands the training requirement and other requirements of the Healthy Schools Act.

Pest identification, monitoring and inspection

Pest Identification is done by: Official Pest Prevention

(Example: College/University staff, Pest Control Business, etc.)

Monitoring and inspecting for pests and conditions that lead to pest problems are done regularly by

Official Pest Management

and results are communicated to the IPM Coordinator.

(Example: District staff title, e.g. Maintenance staff)

Specific information about monitoring and inspecting for pests, such as locations, times, or techniques include:

(Example: Sticky monitoring boards are placed in the kitchen and are checked weekly by custodial staff.)

Regular Inspection of kitchen and food preparation/storage sites.

Positive identifications of target pest before application of a reduced risk pesticide.

Engagement in efforts to provide non-chemical measures, such as exclusion, increased sanitation and landscape modifications.

Pests and non-chemical management practices

This school district has identified the following pests and routinely uses the following non-chemical practices to prevent pests from reaching the action level:

Pest	Remove food	Fix leaks	Seal cracks	Install barriers	Physical removal	Traps	Manage irrigation	Other
Ants	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	Monitor Sanitation
Roaches	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Monitor Sanitation
Rodents	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	Monitor Sanitation
Fleas	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Exclude rodents and feral cats
Wasps	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	Eliminate standing water
Spiders	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Landscape modifications

Chemical pest management practices

If non-chemical methods are ineffective, the school district will consider pesticides only after careful monitoring indicates that they are needed according to pre-established action levels and will use pesticides that pose the least possible hazard and are effective in a manner that minimizes risks to people, property and the environment.

This school district expects the following pesticides (pesticide products and active ingredients) to be applied during the year. (This list includes pesticides that will be applied by school district staff or licensed pest control businesses.):

Please see the attached information on pesticides used on TRUSD school campuses.

Healthy Schools Act

- This school district complies with the notification, posting, recordkeeping, and all other requirements of the Healthy Schools Act. (Education Code Sections 17608 - 17613, 48980.3; Food & Agricultural Code Sections 13180 - 13188)

Training

Every year school district employees who make pesticide applications receive the following training prior to pesticide use:

- Pesticide specific safety training (Title 3 California Code of Regulations 6724)
- School IPM training course approved by the Department of Pesticide Regulation (Education Code Section 16714; Food & Agricultural Code Section 13186.5).

Submittal of pesticide use reports

- Reports of all pesticides applied by school district staff during the calendar year, except pesticides exempt¹ from HSA recordkeeping, are submitted to the Department of Pesticide Regulation at least annually, by January 30 of the following year, using the form provided at www.cdpr.ca.gov/schoolipm. (Education Code Section 16711)

Notification

This school district has made this IPM plan publicly available by the following methods (check at least one):

- This IPM plan can be found online at the following web address: www.TRUSD.NET
- This IPM plan is sent out to all parents, guardians and staff annually.

Review

- This IPM plan will be reviewed (and revised, if needed) at least annually to ensure that the information provided is still true and correct.

Date of next review: 1/31/25

I acknowledge that I have reviewed this school district's IPM Plan and it is true and correct.

Signature: 

Date: 1/31/24

¹ These pesticides are exempt from all Healthy Schools Act requirements, except the training requirement: 1) products used in self-contained baits or traps, 2) gels or pastes used as crack and crevice treatments, 3) antimicrobials, and 4) pesticides exempt from U.S. EPA registration. (Education Code Section 17610.5)

PESTICIDE NOTICE

Pesticides are the products Official Pest Prevention uses to control the target pests listed in your agreement. Pesticides make a better life for all by helping control disease carriers, thus protecting our health and property. When properly used, pesticides pose no problems to man or the environment. Your Official Pest Prevention technician is a state certified applicator whose knowledge is constantly being upgraded through regularly scheduled training sessions. Official Pest Prevention is licensed by the structural Pest Control Board of California under License. # OPR14300. If you have any questions, please call (916) 686-7960 or 1-877-711-BUGS. To control target pests listed, we propose to use Advance 360A (Abamectin B1), Advance 375A (Abamectin B1), Advance Dual Choice (N-Ethyl Perfluorooctanesulfonamide), Advion Ant Gel Bait (Indoxacarb), Advion Cockroach Gel Bait (Indoxacarb), Alpine Cockroach Gel Bait Rotation 1/2 (Dinotefuran), Alpine Dust (Dinotefuran), Alpine WSG (Dinotefuran), Alpine Foam (Dinotefuran), Arilon (Indoxacarb), Arlion/Advion (Indoxacarb), Avert roach gel (Abamectin B1), Avert Dry Flowable (Abamectin), Best 19-4-12 with Dimension (Dithiopyr), Best 19-3-10 with Dimension (Dithiopyr), BacAzap (Ethoxylated Alcohol, Nonylphenoxypolyethoxyethanol), Bifen (Bifenthrin), Bifen IT (Bifenthrin), Bifen L/P (Bifenthrin), BorActin (Orthoboric Acid), Borid (Orthoboric Acid), Bora-Care (Disodium Octaborate Tetrahydrate), CB-80 (Pyrethrins, Piperonyl Butoxide), Contrac All Weather Blox (Bromadiolone), Contrac Rodenticide (Bromadiolone), Crossfire (Clothianidin, Metofluthrin, Piperonyl Butoxide), Cy-Kick CS (Cyfluthrin), Cyper WSP (Cypermethrin), DeltaDust (Deltamethrin), Demand (Lambda-cyhalothrin), Diphacinone (Diphacinone), Ditrac (Diphacinone), Dominion 2L (Imidacloprid), Drione (Pyrethrins, Piperonyl Butoxide, Amorphous Silica Gel), DSV (Dimethyl Benzyl Ammonium Chloride, Octyl Decyl Dimethyl Ammonium Chloride, Didecyl Dimethyl Ammonium Chloride, Dioctyl Dimethyl Ammonium Chloride), EcoVia EC (Thyme Oil, 2-Phenethyl Propionate, Rosemary Oil), Essentria G/Essentria, Ic3† (Eugenol, Thyme Oil), Essentria IC Pro (Sodium Lauryl Sulfate, Geraniol, Clove Oil, Commint Oil), Fendona (alpha-Cypermethrin), Gentrol (Hydroprene), Gentrol Complete (Lambda-Cyhalothrin, Hydroprene), Glyphos Pro (Glyphosphate), Glyphosate Pro 4 (Glyphosphate), Glypro Plus (Glyphosate), Gopher Getter Type 2 Bait (Diphacinone), IGI Carbon Dioxide (Carbon Dioxide), In2Care/In2Mix (Pyriproxyfin, Beauveria bassiana strain GHA), Invade Hot Spot (2-Butoxyethanol, Sodium Dodecyl Sulfate, Lauryl Alcohol), Masterline (Bifenthrin), Maxforce (Fipronil), Maxforce FC (Fipronil), Maxxforce Fleet (Fipronil), Maxforce Quantum (Imidacloprid), Maxxthor SC (Bifenthrin), Maxxthor SG (Bifenthrin), Merit 75 WP (Imidacloprid/imidazolidinimine), Merit 75 WSP (Imidacloprid/imidazolidinimine), Merit 0.5G (Imidacloprid), Microcare 3% CS (Pyrethrins, Piperonyl Butoxide), Microcare CS (Pyrethrins, n-Octyl Bicycloheptene), Mole Patrol (chlorophacinone), Mole-Med Dry Granular (Ricinus Oil), Merit (Imidacloprid), Niban (Orthoboric Acid), NiBor-D (Disodium Octaborate Tetrahydrate), NyGuard (pyridine), OneGuard (Lambda-cyhalothrin, Prallethrin, Pyriproxyfen, Piperonyl butoxide), Optiguard (Thiamethoxam), Optimate CS (Gamma-cyhalothrin), Permethrin SFR (Permethrin), Petcor (Pyrethrin, Methoprene), Phantom (Chlorfenapyr), Precor (Methoprene), ProFoam (Sodium Decyl Sulfate, Sodium Lauroampho Acetate, Sodium, Lauryl Sulfate), Prograss (Ethofumesate), ProScape 32-0-6 (Nitrogen (N), Nitrogen, Water Insoluble Nitrogen, Urea Nitrogen, Water Soluble Nitrogen, Soluble Potash, Sulfur), Pro-Spreader (Nonylphenoxy polyethoxy ethanols, isopropanol & Fatty acids), Prothor SC 2 (Imidacloprid), PT 221L (Lambda-Cyhalothrin), PT 565 (Pyrethrins, Piperonyl Butoxide, n-Octyl Bicycloheptene Dicarboximide), PT Alpine Flea and Bedbug (Dinotefuran), Pyriproxyfen, Parallethin, PT Alpine (Dinotefuran), PT Wasp-Freeze (Prallethrin), Ranger Pro (Glyphosate), Riptide (pyrethrins, Piperonyl Butoxide), Rodeo (Glyphosate, n-(phosphonomethyl) glycine, isopropylamine salt), Roundup Pro Max (Glyphosate, n-(phosphonomethyl) glycine), Rozol Ground Pocket Gopher (Chlorophacinone-Liphadione), Scion (Gamma-cyhalothrin), Selontra (cholcalciferol), Shockwave (Pyrethrins, Piperonyl butoxide, N-Octyl bicycloheptene dicarboximide, Esfenvalerate, pyridine), Shockwave 1 (Pyrethrins, Piperonyl butoxide, N-Octyl bicycloheptene dicarboximide, Esfenvalerate, pyridine), Sluggo (Iron Phosphate), Snake a Way (Sulfur, Napthalene), Snake-Out (Cinnamon Oil, Clove Oil, Ceradwood Oil), Speckoz (Bifenthrin), SpeedZone Broadleaf (Carfentrazone-ethyl, 2,3-D, 2-ethylhexyl ester, Dichlorprop-p, 2 esthylexl ester, Dicamba), Subdue Maxx (Mefenoxam), Sumari Ang Gel Bait (Clothianidin), Sumari (Clothianidin, Pyriproxyfen), Stryker 100 (Pyrethrins, Piperonyl butoxide), Suspend (Deltamethrin), Suspend Polyzone (Deltamethrin), Talon G (Brodifacoum), Talpirid (Bromethlin), Talstar One (Bifenthrin), Talstar CA Granular (Bifenthrin), Talstar Pro (Bifenthrin), Talstar Termite/Insecticide (Bifenthrin), Taurus (Fipronil), Tekko Pro (Novaluron, Pyriproxyfen), Tempo 20 WP (Cyfluthrin), Tempo SC Ultra (Cyfluthrin), Tempo Ultra WP (B-Cyfluthrin), Temprid (Imidacloprid, B-Cyfluthrin), Tengard/Dragnet/Permethrin SFR (Permethrin), Termidor SC (Fipronil), Termidor HE (Fipronil), Termidor Foam (Fipronil), Terad 3 (Cholecalciferol), Terro Ant Killer II (Sodium Tetraborate Decahydrate (borax)), Tengard (Permethrin), Tim-Bor (Disodium Octaborate Tetrahydrate), Transport Mikron (Acetamiprid, Bifenthrin), Trelona ATBS Annual Bait Station (Novaluron), Trelona Compressed Termite Bait (Novaluron), Turfthor (Imidacloprid), Turfthor WSP (Imidacloprid), ULD BP-100

(Pyrethrins, Piperonyl Butoxide), ULD BP- 300 (Pyrethrins, Piperonyl Butoxide), Vendetta Plus(Abamectin B1,Pyriproxyfen), Vendetta Nitro Cockroach Gel Bait(Clothianidin, Pyriproxyfen), Wasp Freeze(Phenoxybenzyl/d- trans Allethrin), Wilco Gopher Getter AG Bait(Strychnine Alkaloid), Wilco Gopher Getter Type 1(Strychnine Alkaloid), Wilco Gopher Getter Type 2(Diphacinone), Wilco Ground Squirrel Bait(Diphacinone), Wisdom TC(Bifenthrin), Zenith 75 WP(Imidacloprid), Zenporx (Etofenprox Piperonyl Butoxide).

Other: CAUTION, Pesticides ARE TOXIC CHEMICALS. Structural Pest Control Operators are licensed and regulated by the Structural Pest Control Board and apply pesticides which are registered and approved for use by the California Department of Pesticide Regulation and the United States Environmental Protection Agency. Registraton is granted when the state finds that based on existng scientific evidence there are no appreciable risks if proper use conditons are followed or that the risks are outweighed by the benefits. The degree of risk depends upon the degree of exposure, so exposure should be minimized. If within 24 hours following applicaton you experience symptoms similar to common seasonal illness compared to the flu, dizziness, headache, nausea, etc., contact your physician or poison control center (below) and your pest control operator immediately. For further informaton, contact your pest control operator. Official Pest Preventon (916) 686-7960. For health questons, the County Health Department (see list below), for applicaton informaton, the County Agriculture Commissioner (see list below); and for regulatory informaton, the Structural Pest Control Board (800) 737-8188, 2005 Evergreen Street, Suite 1500, Sacramento, California 95815. Poison Control Center 1(800)222-1222.
